Computer Information Systems: Information Security Graduate

OBJECTIVE

Outgoing and motivated Computer Information Systems Student looking to fill a position as an IT Operations Specialist or Database Administrator upon graduation. Wishing to use my management and business operations management skills to enhance quality of service and ensure operational excellence.

EDUCATION

University of Louisville, Louisville, Ky   May 2020
BSBA in Computer Information Systems: Information Security
Cumulative GPA: 3.37

Saint Xavier High School, Louisville, Ky   May 2016
Cumulative GPA: 3.56

PROFESSIONAL EXPERIENCE

Kentucky Kingdom and Hurricane Bay, Louisville, Ky   03/2015 – Present
Public Safety Manager – Full-Time (Jun. 2017 – Present)

>Manage up to 80 team members and ensure proper training and staffing levels for the Public Safety department. Ensure safety and security of over 800,000 guests annually. Annually budget for operational and labor expenses over $200,000. Perform as a park representative in uncommon and stressful situations. Organize, plan, and enact strategies for successful park operation. Called on by President and CEO to collaborate on special tasks. Youngest full-time manager at the park.

Seasonal Information Technology Intern (Oct. 2018 – Feb 2019)

>Assisted in winterizing and testing the park's over 150 point of sale terminals. Used active directory and Office 365 to set up and install computers and tablets for staff. Troubleshooted network connectivity problems and updated the park's network map. Designed custom software with HTML, CSS, PHP, and SQL. Wrote custom queries for other departments for data analytics purposes. Assisted in the maintenance of the park's SQL Server database.

USA Volleyball Certified Official, Kentucky   2015 – 2017

>Performed duties of a volleyball referee at sanctioned USA Volleyball games and tournaments. Required to maintain certification through annual training and exams.
